Subject: Request Immediate Passage of the “SAVE America Act”

Introduced in House (01/30/2026) H.R. 7296 with 108 Co-Sponsors

Safeguard American Voter Eligibility Act or the SAVE America Act

Many of the above persons have sent to me personal letters asking for my financial contribution to several national Republican Committees and Fundraising PAC’s over the past 12 months. However, I will not contribute anything until the Republican leadership takes some positive action in Passing through both the House and Senate the **SAVE America Act H.R. 7296**.

The passage of this bill is critical for today before the Spring and Summer Primaries and the Mid-Term Election this coming November 3, 2026. This bill says that only registered US Citizens that show proof of their US Citizenship, before they can cast a valid legal ballot in an election. Our country is overrun in our Universities and Colleges with students from China, and other countries who have not assimilated to our culture and do not have interests of America in their deeds and actions. This bill will prevent them from voting. A large portion of college age students have been indoctrinated to believe in Socialism and Communism is a good thing. Township clerks currently do not even ask those who are registering people if they are US Citizens. A vast retraining program needs to be implemented before we can have secure elections with integrity.

The way to pass the SAVE America Act is to pass a rule to allow only a standing, talking continuous filibuster in the senate. Let the speeches of the Democrats be recorded as to why they do not want these important safeguards of US Citizenship in place. I doubt they can last a month doing that, and when they quit, vote and pass the SAVE America Act.

Failure to pass the SAVE America Act will result in Democrat victories on Nov 3, 2026 due to widespread cheating and stuffed ballot boxes as what happened in 2020 general election.

Look what happened on March 3 Primaries in two States:

North Carolina Primary Results March 3, 2026

Democrat Votes Cast = 824,798 Difference = 199,131 More Voters
Republican Votes Cast = 625,667

Texas Primary Results March 3, 2026

Democrat Votes Cast = 2,309,617 Difference = 236,036 More Voters
Republican Votes Cast = 2,073,581

This screen shot was taken during a 2 hr video presentation of Promethean Action Thursday March 5, 2026.

To win the Mid-Term you must work out a way to pass a new senate rule allowing on talking standing continuous filibusters allowed. Then when those speeches are publicly disclosed vote and pass the SAVE America Act.

Also you must emphasize the many positive things that President Trump has done to the betterment of our Country. See and make copies of the two color half page inserts I have included herein. I also have included here the 29 Big Accomplishments Trump had done by July 2025 last year. Make copies to hand out to constituents and talk about those things.

I hope to hear back from many of those addressed in this correspondence, and if the SAVE America Act is passed into law I will commit to contribute \$100 to Republican Causes before the Mid-Term Election.

Respectively Yours
